R. Brian Cobb	1993-1994	Hollie Thomas	1978
Wendy L. Way	1991-1992	Curtis R. Finch	1977
Leonard Albright	1988-1990	George H. Copa	1976

EDITORIAL POLICY: Career and Technical Education Research (CTER) publishes refereed articles that examine research and research-related topics in vocational/career and technical education, career development, human resource development, career issues in the schools (Grades K-12), postsecondary education, adult and lifelong learning, and workforce education. The CTER Editorial Board is committed to publishing scholarly work that represents a variety of conceptual and methodological bases. Submission of manuscripts representing one of the following styles is encouraged: (a) empirically-based manuscripts that report results of original research, either quantitative or qualitative, (b) reviews or synthesis of empirical or theoretical literature, (c) essays derived from original historical or philosophical research, (d) reviews of recently published books, and (e) rejoinders to articles recently published in CTER. CTER will consider for publication papers initially presented at conferences, including those disseminated through conference proceedings. Page costs are not typically assessed. However, if a manuscript is accepted, authors will be asked to either supply camera-ready tables and figures, or pay for the costs incurred in preparing complex tables and figures for publication.
