

## EDITOR'S NOTE: SPECIAL EDITION

We are pleased to have volume 9.1 of *Electronic Antiquity* serve as a special issue devoted to the life of Sophocles in the *Suda*, edited by Wm. Blake Tyrrell. Professor Tyrrell translated the life for the *Suda On Line* (SOL) project at *The Stoa Consortium* and we encourage you to visit that site ([www.stoa.org/sol/](http://www.stoa.org/sol/)). In this issue, Professor Tyrrell includes that text and translation (p.9), but goes significantly beyond it by providing the text and translation for sources that give information on the topics in the *Suda*'s life. We hope that you will find this a useful and interesting resource.
