**How to Interpret Locator Codes in the List of Slave Narratives**

A **locator code** (e.g. *Slave I, Fisk*) is used to refer to each of the collections in which narratives are located. Each locator is followed by a volume number and/or page numbers.

**Example:** *Slave* (6) (a): 382 should be read *Slave*, vol. 6, part a, p. 382.

To determine the collection to which the locator terms refer, click **Bibliography** in the **Bookmarks**.
