SUMMARY

Glen currently serves as the Instrument and Electrical Supervisor at the Virginia Tech Power Plant. The Power Plant supplies steam, hot water, and compressed air throughout the year to the main campus at Virginia Tech 24 hours a day, 7 days a week. Steam is used in instructional and research applications, to heat buildings, and to prepare food for the campus community. The Power Plant has multiple instrumentation systems that permit safe and reliable operation of the facility. Glen's knowledge of the systems at the Power Plant, his dedication, and his attention to detail helps the Power Plant to accomplish its mission.
