SUMMARY

Donna, Program Manager in Continuing and Professional Education (CPE), is a long-time employee of Virginia Tech and CPE. She manages many of the most challenging and complex conferences and programs offered by the unit. In addition to her valuable efforts, Donna has contributed greatly to our local community and to her colleagues in a number of meaningful ways. Examples include the leadership she recently provided with the unit's canned food drive and her efforts in collecting donated resources for the family of a former colleague who suddenly passed away.

Through her generous spirit and her strong work ethic, Donna contributes to the university and the unit in a way that is within the spirit of those who should be considered for the President's Award of Excellence.
